## **I. RESPONSIBILITIES AND OBJECTIVES**

The County/District Fire Warden has the responsibility for providing fire prevention, detection and suppression, for wildland fires on any non-federal lands within the assigned County/District. County/District Fire Wardens act as an official representative of both, the State of Utah and the County in matters pertaining to wildland fire management.

The purpose of the County Mobilization Plan is to identify fire personnel from agencies that may have involvement or may become involved in wildland fire suppression, recognize valuable fire suppression resources and/or supplies, and define procedures for reporting fires, requesting assistance for suppression efforts and/or response to wildland fire incidents. This mobilization plan serves as an aid to fire wardens and/or agency personnel.

The primary objective of fire suppression is to prevent loss of life, limb and/or valuable properties from threat or damages from wildland fire. Fire suppression efforts must never justify actions, which might endanger human lives. All suppression actions must occur in a safety conscious manner and will have been calculated to minimize danger to involved personnel. **Suppression actions taken on any fire must only be to the extent justifiable of the resource threatened.** All Fire Suppression actions taken, shall display efforts for minimizing the loss by fire, while reducing unnecessary costs to the county or state.

Further clarification of responsibilities and objectives can be referenced in Utah State Code 65A-8-101,102, 103, 201, 202, 203, 209, 210, and 212.

This plan is intended to promote expediting and locating and/or ordering equipment, fire personnel, services, etc., from Tooele County, adjacent counties, the state of Utah and/or federal agencies.

## II. FIRE REPORTING PROCEDURES

All wildland fire related calls will respectfully be reported to both, the Tooele County Sheriff's Office (435-882-5600 or 911) and the Northern Utah Interagency Fire Center (NUIFC): (801) 495-7600, NUIFC Fire Emergency Line: (801) 495-7611, NUIFC On Call: (801) 310-3109.

## V. STAFFING THE FIRE ORGANIZATION

### A. Initial Attack

Initial attack will usually be handled by the District Fire Warden, local Fire Departments, and cooperating Federal Resources. Immediately upon receiving report of a fire in the district, the Fire Warden shall be notified. The first resource on scene will determine jurisdiction and coordinate with the authority having jurisdiction. If another agency or fire department provides the initial attack, the fire warden will receive notification pertaining to the size and resources necessary to suppress the fire. If at any point a fire increases in complexity levels beyond the control efforts of an initial attack force sufficient forces shall be dispatched to the fire based on requirements for suppression and availability of resources. The fire warden will be notified of any and all potential wildland fire in Tooele County.

### B. Obtaining Manpower

#### 1. Local and Area Resources

- (a) Volunteer/Career Fire Departments
- (b) State of Utah
- (c) Bureau of Land Management
- (d) US Forest Service

#### 2. Out of Area Resources

- (a) Shall be requested only if the fire exceeds the capability of the available local and area resources. Requests for outside resources shall be placed and

coordinated with the Northern Utah Interagency Fire Center by an NWCG qualified incident commander with the jurisdictions Duty Officer approval.

### **C. Requests for Assistance**

#### **1. Division of Forestry, Fire and State Lands**

- (a) District Fire Warden
- (b) Area Fire Management Officer
- (c) Area Manager
- (d) State Fire Management Coordinator
- (e) State Forester

### **D. Tooele County Memorandum of Understanding (MOU) List**

- (a) Stockton Fire Department
- (b) North Tooele Fire District
- (c) Terra Fire Department
- (d) Vernon Fire Department
- (e) Rush Valley Fire Department
- (f) Wendover Fire Department
- (g) Tooele County Fire Department (Sheriff's Office and Roads Department)

### **E. Tooele County Mutual Aid Resources (Not under MOU)**

- (a) Tooele City Fire Department
- (b) Grantsville Fire Department
- (c) Tooele Army Depot Fire Department (North and South)
- (d) Dugway Fire Department
- (e) Utah Test & Training Range Fire Department
- (f) Wendover Airport Fire Department
- (g) Ibapah Fire Department

## IX. AREAS OF RESPONSIBILITY

Fire Agreements exist between the Utah Division of Forestry, Fire and State Lands (acting for the Six County area), Uintah-Wasatch-Cache National Forest, Manti-La-Sal National Forest, Fish Lake National Forest, Capitol Reef National Park Richfield BLM Office and Salt Lake BLM Office. These agreements define zones of responsibility for initial attack on fires, financial compensation procedures, limitations of expenditures for the members of the agreement, and additional information making management of wildland fires successful for all concerned. Each participating agency has copies of these agreements and maps delineating management zones.

## X. AREAS OF CONCERN

There are several areas considered special hazard and/or risk areas. Urban interface is an issue in Lake Point, Erda, Tooele, Stockton, Terra and various other locations throughout the county. These areas should be recognized as areas of special concern. Other areas of special concern are the railroad right-of-ways, extending along SR-36 through the Tooele Valley and I-80, also the right-of-ways extending along the Oquirrh Mountain range .I-80, Hwy 36, Hwy 112, Hwy 138, Hwy 73, the west desert and Stansbury Island. There are multiple areas highly susceptible to lightning strikes including the mountain ranges to the east and west of Tooele Valley, the Stansbury Mountains, Simpson Mountains, Stansbury Island and the Cedar Mountain Wilderness Area. The cheat grass fuels in these areas allow fires to develop and spread rapidly.

A special area of concern for the health and safety of fire personnel is the **US Magnesium Corporation**. There is a 5 mile radius around the smoke stack designated as a “NO FLY ZONE” area for aviation assets. A response is still required by State Statute, and firefighter safety will be the overriding consideration for initial and extended attack. The Northern Utah Incident

Organizer provides a Go No Go checklist that is to be consulted before ground resources engage fires within the no fly zone.

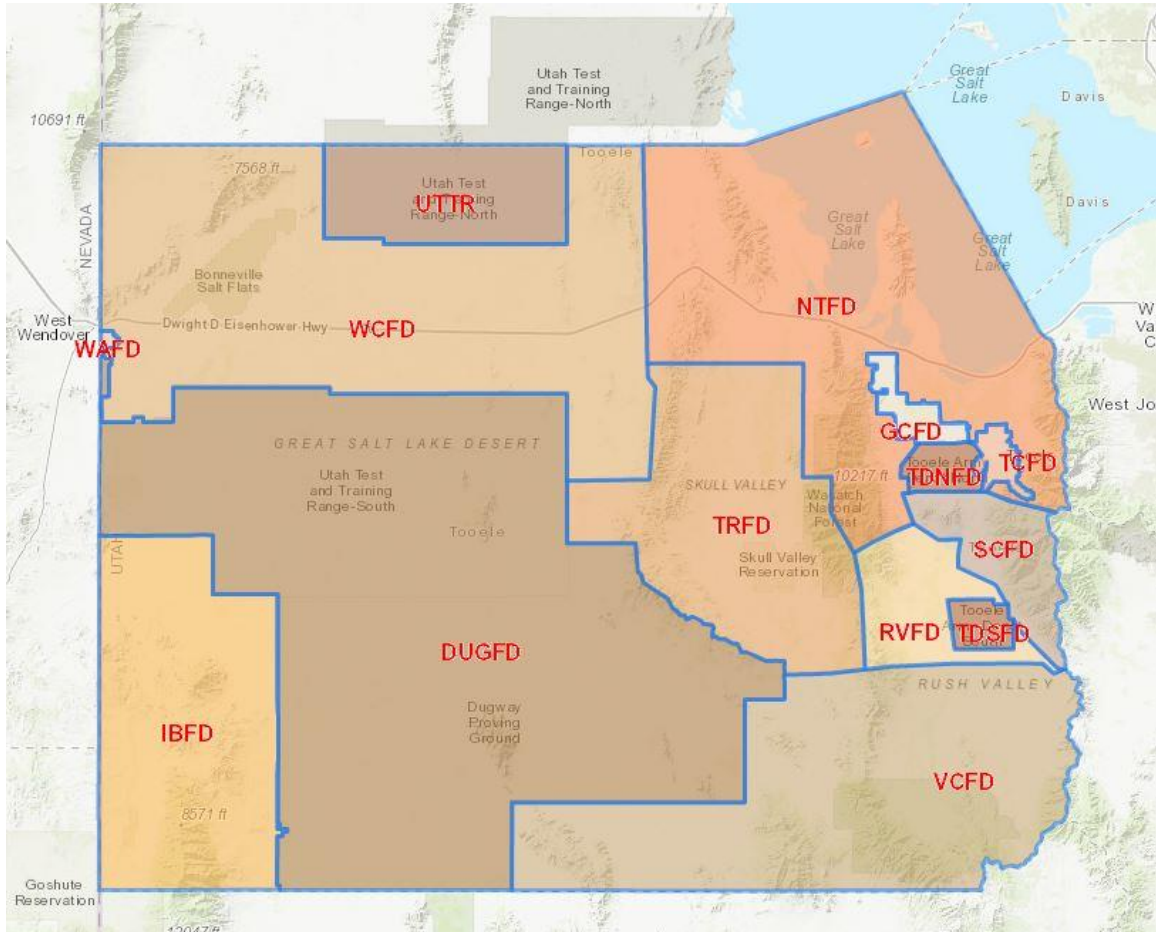

The GPS center of this area is: **40 54.753,-112 43.877**

The Department of Defense (DOD) will be responsible for fire suppression on DOD, property including Dugway Proving Ground, North Tooele Army Depot, South Tooele Army Depot, and Utah Test and Training Range. On rare occasions they will request outside assistance and they prefer to utilize federal fire resources for billing purposes. In the event that you are asked to respond to a fire on DOD land, be sure to get a thorough briefing and adhere to safety standards.

- Dugway is a large area at the South end of Skull Valley. If you are dispatched to the area clarify with dispatch to verify that you are not on DOD land. If you are coordinate with dispatch and other resources for proper protocol.
- North Tooele Army Depot is surrounded by a fence located to the south and to the west of Tooele city.
- South Tooele Army Depot is located approximately 20 miles south of Tooele on SR 73 also surrounded by a fence. You must use the gate if you need to enter the facility.
- Utah Test and Training Range encompasses the majority of the land to the west of the Cedar Mountains from Dugway to 15 miles south of I-80 as well as the north/central part of the county, north of I-80.
